THE
HARNESS

Before you buy a Cream Separator come to our store and let us demonstrate our Deary Maid and Domo-Separator to you. We also carry a complete line of Milk Cans, Pails and Milk Coolers. "Remember the House with a Reputation."

PLANTERS HARDWARE CO.
INCORPORATED

TWELVE MILES

**Traveled By Harvard Student
In 20 Dances.**

Boston, June 3.—A scientific Harvard student has measured the hard work in modern dances. He went to a dance and carried along two pedometers, one that he attached to his leg when executing the tango and the other when dancing the hesitation.

In dancing the tango five times, with encores, he covered four and a quarter miles. That makes an average of more than four-fifths of a mile to a dance. The hesitation, which was sandwiched in between the maxixe and tango, served as a rest cure, for in four hesitation waltzes the pedometer recorded a little more than a half mile, or one-eighth of a mile a dance.

During the evening, which includes about twenty dances, there are usually half that number of tangos, five or six hesitations and the rest maxixes. A dancing pair therefore, travels roughly over 12 miles during the evening.

TWO KILLED, 3 HURT

**Car Runs Into Tree Near Salem,
Ala., With Fatal Results.**

Salem, Ala., June 3.—Mrs. Belle M. Kornegay is dead, Mrs. H. G. Patillo is dying and Mrs. Edgar P. Russell, Miss Mamie Kornegay and an infant child of Mrs. Patillo are injured, as the result of an automobile accident six miles from this city late Monday afternoon. Edgar P. Russell was driving a light car containing the party, all relatives, at a high rate of speed and attempted to pass a heavy touring car headed in an opposite direction. The light car skidded over some rough plowed ground when Mr. Russell is thought to have lost control. The car hit a tree.

To Remove Doubts.

Farmers' organizations and trade unions would be specifically legalized and declared not to be combinations in restraint of trade by a paragraph which the House incorporated in the Clayton bill to supplement the anti-trust laws.

**Edward Amherst Ott to Lecture
Here Chautauqua Week**

EDWARD AMHERST OTT'S popular lectures are bearing fruit in the way of advanced legislation for the betterment of the American people. His lecture on "Sour Grapes," which treats of marriage and divorce, has been given nearly 2,000 times. In one of the states where it was given the legislator who introduced a reform marriage bill said he received his inspiration to do so from hearing Mr. Ott's address. But whether he delivers this lecture or one of his other subjects he is always alike—forceful, entertaining and inspiring. He has appeared before more than 3,000 audiences in America, and more than 2,000 copies of his books have been sold.

CALIFORNIA VOLCANO

**Eighteen Hours of Activity
Leaves Mountain Covered
With Ashes and Lava.**

Redding, Cal., June 3.—Mount Lassen, a volcano of the Cascade range, in the Sierra Nevada, erupted for eighteen hours, beginning Saturday throwing out smoke, steam, rocks and volcanic ash. The mountain is quiet again.

The north slope of the mountain, snow-clad yesterday, was bare for two miles, and in place of the melted snow, hot rock, ashes and lava were reported.

The outbreak is the first recorded in California in seventy years, and the first of any importance in 200 years.

W. J. Rushing was inclined to believe that an active geyser suddenly had developed. He said no fire had been seen, although the disturbance lasted during a whole night. The smoke and steam column, he said, rose about 200 feet.

Mount Lassen is 10,447 feet high and of volcanic origin. There is evidence that it was in eruption at a comparatively recent period, although antedating the entry of the white man into California.

CLOSE VOTE

**Expected On The Canal Tolls
Repeal Bill.**

Washington, June 3.—Administration leaders, hopeful of a vote in the Senate on the Panama tolls repeal by Saturday night or Monday, are now fearful that their majority is to be close. At least eleven Democrats are counted against the repeal, and while the Administration is claiming fifteen Republican supporters, it is likely that there will not be so many and that the majority for the repeal will probably not exceed six or seven votes.

Democrats canvassed against repeal today are: Pittman and Newlands, of Nevada; Ashurst and Smith, of Arizona; Shields, Tennessee; Chamberlain, Oregon; Vandaman, Mississippi; O'Gorman, New York; Walsh, Montana; Ransdell, Louisiana, and Thomas, Colorado.

ALL DAY SERVICES

**Held at Euergesia on Last
Sunday.**

All-day meeting was held at Euergesia Christian church last Sunday. The six Christian churches of the circle were represented, the attendance being about 400. Dinner was served on the grounds and services were conducted both morning and afternoon. Rev. Wickham, of Lafayette, preached in the morning and Mr. John Ferguson delivered an address in the afternoon.

FINE FARM

**Changes Hands at A Fancy
Price Monday.**

The farm of Mrs. Carrie M. McKee, deceased, consisting of 200 acres, was sold at the court house door Tuesday and purchased by Richard Leavell at \$82 50 an acre, the amount being \$16,500. The farm lies on the Clarksville pike, 8 miles from town.

Hester-Gillis.

The engagement of Mr. Byron Hester, of Mayfield, to Miss Cleo Gillis, of Lexington, is announced. The prospective groom is a son of Mr. R. O. Hester, formerly an attorney of this city. The marriage will take place June 16. The groom will graduate this month at the Transylvania Bible College and go to Oklahoma to take charge of a church.

Morgan-White.

Mr. Nelson Morgan, a young farmer of the Pod neighborhood, and Miss Verdie White, a daughter of Mr. and Mrs. W. A. White, of near Clardy, were married Tuesday night, at the bride's home. The ceremony was performed by Rev. P. P. Gladdish. The families are prominent in the vicinity and the young people have many friends to wish them much happiness.

OIL STRUCK IN ALLEN CO.

**Scottsville Is Excited Over
Discoveries In New
Oil Field.**

Louisville Evening Post.

Scottsville, Ky., May 30.—The people of Scottsville are excited and delighted because of the fact that the Martindale Oil Company of Indianapolis, struck a gas well just outside of the city limits of Scottsville, that will make two million feet of gas per day.

Nashville Banner.

Scottsville, Ky., May 30.—A drill crew of the Martindale Oil Company operating on the Barlow farm a short distance west of the city limits, has struck a strong flow of gas at a depth of only one hundred feet. The source of supply is not a "pocket," as has apparently been the case with previous strikes of the kind in this territory, but experts say it comes from a gas sand, such as has not been heretofore found in this district. When the drill had penetrated about four feet in the sand, the rush of gas became so strong, the work had to be abandoned. The well, which is on the bank of Bay's Fork Creek, was nearly filled with water when the sand was reached and the pressure of the gas kept the water spouting like a geyser, three feet above the mouth of the well. Gas that escaped through fissures in the earth found its way up through the gravelly bed of the creek, so that the water-boiled and bubbled in fifty places from the outflowing gas. Crowds of people are flocking to view the spectacle.

Casing was put in the well to shut off the water and gas, and an effort made to continue the drilling, but a few blows of the bit brought another rush of gas so powerful that the attempt was given up. It is believed this well will be adequate to supply Scottsville with gas for all purposes, the driller estimating the flow at 2,000,000 feet daily.

The Allen Oil Company, operating two miles further south, are using gas from their wells to operate a large pumping engine. They have three oil wells under pump and another 50 barrel well that came in Tuesday, giving them a total output of 200 barrels daily at this point. Each of the wells also produces considerable gas.

The Petroleum Oil Company, of which Mr. Neel Glenn, of Springfield, Tenn., is President, also drilled in a 50-barrel well this week near Petroleum. This company has 9,000 acres leased in that section and is pushing the work of development.

There are at present eight wells being drilled in Allen County. One was commenced Wednesday a mile east of Scottsville in a locality not previously tested.

CLOSE AT JACKSON

**But The Election Was Almost
Without Votes.**

With a majority of only six votes out of 170 polled, Mayor C. E. Griffin of Jackson, Tenn., was re-elected over O. J. Nance, nominee of the Business Men's Commission Government club. In the first ward Alderman Hallie Hill; in the second, Andrew J. Chester, both administration candidates, won over strong opposition. In the third, Lawrence Taylor and in the fourth J. T. McCutcheon, both commission government candidates, won easily. The last named is a brother-in-law of C. H. Bleich, of this city.

Conference In Session.

The Hopkinsville District Conference of the M. E. Church, South, is in session at Kuttawa this week. A large number of preachers and delegates from various parts of the district are in attendance.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever. It is not a case of the ear, but of the tube. We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by local applications. Send for circulars from R. J. CHENEY, & CO., Toledo, Ohio. Sold by Druggists, etc. Take Hall's Family Pills for constipation.

T. M. JONES

MAIN STREET,

HOPKINSVILLE, KY.

FLESH-COLORED HOSIERY

The 1914 Girl Goes In For Athletic Costumes.

Atlantic City, N. J., June 3.—The bathing season for 1914 was ushered in by the appearance on the beach of a score of husky looking, hardy athletes, who pranced into the white surf, much to delight of the crowds on the boardwalk.

In the afternoon hordes of fashionable summer girls in their latest bathing attire attracted much attention and admiration from the chair crowd.

The season's bathing girl has gone in for flesh-colored hosiery. She is a lithe capable, young person, who does more swimming and less posing. Gashed skirts give her more freedom of limb. The wider out kimono style shoulders effects or the no sleeves at all scheme of custom architecture, with the same wide cut armholes, regular athletic man fashion, gives more room to stroke with her arms. Bloomers of varied sleeves are also in favor, giving the dresser the opportunity of making a more picturesque show than heretofore.

SAMUEL DURHAM DEAD.

**Brother of Mr. J. H. Durham
Passes Away.**

Samuel D. Durham, a brother of Mr. J. H. Durham, of Crofton, died Monday evening at his home in Paducah. He had been ill from stomach trouble for several months. Mr. Durham was forty-two years old and leaves his wife and four children, three sons and one daughter. He was a member of the Missionary Baptist church.

He was reared in this county but lived in Coulterville, Ill., for several years. He returned to Kentucky about three years ago.

The interment took place at Smithland.

HUERTA'S IECA

**General Election July 5 to Fill
Offices.**

Mexico City, June 1.—The views of President Huerta with regard to the settlement to which the Niagara Falls peace conference is directing its efforts never yet has been defined, but according to persons close to the president he has proposed that the elections for president, vice-president, senators, deputies and state governors should be held on July 5 next, as decreed by congress. He is desirous that these elections shall be free and absolutely legal, constitutionalists having the right to exercise supervision in those portions of the republic now controlled by the government and the government agents the same right to supervise the returns in those parts of the country now in the hands of the constitutionalists.

Huerta, according to the same authority, has made solemn promises to hand over the executive power to the president thus elected. He objects to the appointment of a new provisional president because this would cause impairment of the national sovereignty.

Killed Her Husband.

Mrs. Joseph Boyami, of Aurora, Minn., 25 years old, confessed slayer of her husband, is in jail.

According to the woman Boyami accused her of infidelity. During the quarrel she says her husband reached for a revolver under his pillow. She seized the revolver and shot him in the head.

Circus Tied Up.

The Rice Bros. circus, which was assembled in the earlier days of spring, has been tied up at Dawson Springs since last Thursday, according to Capt. W. F. McCurran, part owner of the show, who is in Paducah. The circus was attached by a St. Paul concern, from whom many of the horses were secured.
